About us

A delicious story began somewhere in Epirus, in a beautiful house by the lake. With a lot of playing, happy voices, fragrant smells and a grandmother who introduced us to the secrets of gastronomy and well-living. Going through an enchanting experience with her, has left us with an important legacy. A legacy that entails recipes we loved, passion and knowledge about food and a lot of fondness for what we do.

In 1999, Panagiotis and Ilias Karachalios laid the foundation for the future, in a small workshop, in a neighborhood in Athens, with very personal care and fondness. Since the first day of the operation, the goal was –and always remains– to offer safe, well cared, healthy and quality products, through a modern and standardized production processes, combining high technology with traditionally authentic recipes.

Over the years, we have linked and identified our brand name with the creation of innovative quality and safe products, enhancing our customer-centric character every day. **RODOULA** has stable and reliable partnerships with domestic and foreign suppliers for its raw materials in order to ensure high international quality standards. Through the years **RODOULA** has created many tasty & innovative products, strengthening and supporting its partners businesses' profile, daily putting great efforts through all levels of management in order to achieve higher quality of products.
