...taste her talent!

Desire for perfection
Passion for precision
Consistency to firm taste

Dear partner,

Harkening to the needs of the market and relying on our accumulated experience to this day, our company moves **one step closer to you**, presenting a wide variety of desserts, in the hope of **embarking on a sweet journey with you**. We are creating the **finest and tastiest desserts of the market**, high quality and sophisticated, with Rodoula's special and unique recipes.

Our overarching purpose is to offer all our clients, pastry products that will **give added value**, with their image and taste, so that desserts **become even more important and profitable** for your store. **Some things do not change on our common sweet journey:**

- **Quality.** By strict selection of raw materials, the necessary processing and constant quality controls, we can ensure the high quality of our products. Our highly trained and skilled staff, in our new, modern, high-standard factory, ensures and guarantees products of high quality and gustatory identity. Our company is ISO 9001:2015, ISO 22000:2018, IFS, BRC, Halal and Kosher certified.
- **Variety.** We have a wide variety of desserts, which includes the most beloved and popular choices, as well as pioneering diversified products.
- **Innovation.** We are in constant collaboration with both established and international pastry schools, and distinguished pastry chefs, Greek and foreigners, in order to keep offering you new and special flavors. We are constantly searching and seeking after new trends and developments in confectionery sector in the Greek, European and American markets.
- **Ease.** Our products constitute a quick and easy solution,

RODOULA

available at any given time. Dessert is promptly ready, either for sale, thawing it 3-4 hours earlier, or directly available for serving, by placing it in the microwave oven directly from the freezer.

- **Flexibility.** Flexibility ensues in both seasonal traffic (holidays, weekends) and in periods of slow activity, keeping your operating costs steady and reduced.
- **Retrenchment.** Our desserts are rationed, allowing you to take stock and calculate cost easily at any time, thus avoiding wastage of products and stockpiling ready-made products or raw materials.
- **Effectiveness.** The expanded variety of products, innovative flavors, freshly kept products in your showcase, alternative pricing proposals, lead to pleased customers.
- **Profits.** Pleased customers increase footfall and broaden customer base, increasing total sales, thus maximizing your profits.
- **Trust.** Our constant presence and cooperation with you, in combination with our expertise in the category of making products that appeal exclusively to you and your business, suggest that you can depend on us and trust us regarding desserts as well. Our ultimate expectation is to also offer **functional solutions** in this product category, which on the one hand will fit and **respect your store's philosophy**, and on the other hand facilitate you in your everyday life, through controlled costs, offering a **wide variety of dessert suggestions**.

Yours sincerely,
Panagiotis Karachalios – Ilias Karachalios.

INSTRUCTIONS

GENERAL INSTRUCTIONS OF DESSERT MAINTENANCE AND SALE

We created different categories for all hours of the day, with excellent raw materials that are brought out through proper management, both during storage and when they are displayed at sale points.

Therefore, follow the following instructions for defrosting and maintaining them, as well as for the baking process, where necessary: All products are deep-frozen and depending on their class, are subject to different handling:

Freezing products

- Must be stored in the freezer, at -18°C.
- Must be defrosted in the refrigerator, at 0-4°C, and once thawed out, re-freezing is prohibited.
- As for products that are offered hot – use of oven or microwaves – such as souffl's, apple pies, dream cakes, chocolate pies, coconut pies, molten cakes, orange pies, brownies etc, regenerate directly from the freezer in 50-60 seconds.
- Refrigerator desserts, such as pastries, cakes, bowls, shots, daily sweets, mini treats, batons, are maintained for 5 days at a temperature of 0-4°C. Defrost small quantities of products, depending on the potential and dynamic of sales. (Attention: Different temperatures will affect product's life-time).
- Buffet dessert, ie apple pies, pecan pies, syruped pastries are maintained in a dry and cool environment for 5-15 days, depending on the product.
- Syruped pastries that are sold unbaked, see the instructions below each product.
- Cookies are baked in 160°C, in preheated oven, for 12 to 14 minutes, directly from the freezer (Attention: they must be soft and chewy).

Note: defrosting and baking times may vary depending on the type of machinery.

For further information, please contact the company's quality control department. Tel: 201 247 8615, email: quality@rodoula.gr

RODOULA

Rodoula never failed to serve her desserts after dinner. In her large kitchen, when this beautiful brunette was kneading nuts or syruping baklava, everything seemed like a little ritual.

The small iron scale with weights she used to weight flour, milk and orange juice, was her most important assistant. What has vividly remained in our memory from her kitchen is her simple dark robe from Ipeiros, the roller, the stirrer, and of course the scale.

She used to tell us that a dessert is just like a clock, if it's not exact, it lacks taste. She added weights, subtract ingredients, and when she had the right dosages, she began picking.

She shook the stirrer rhythmically and one by one the ingredients found their place in the basin, slowly, as if each one took its time, as if she was speaking to them.

Rodoula did not hurry in anything, she made her desserts singing, after all dessert goes together with joys and delights man.

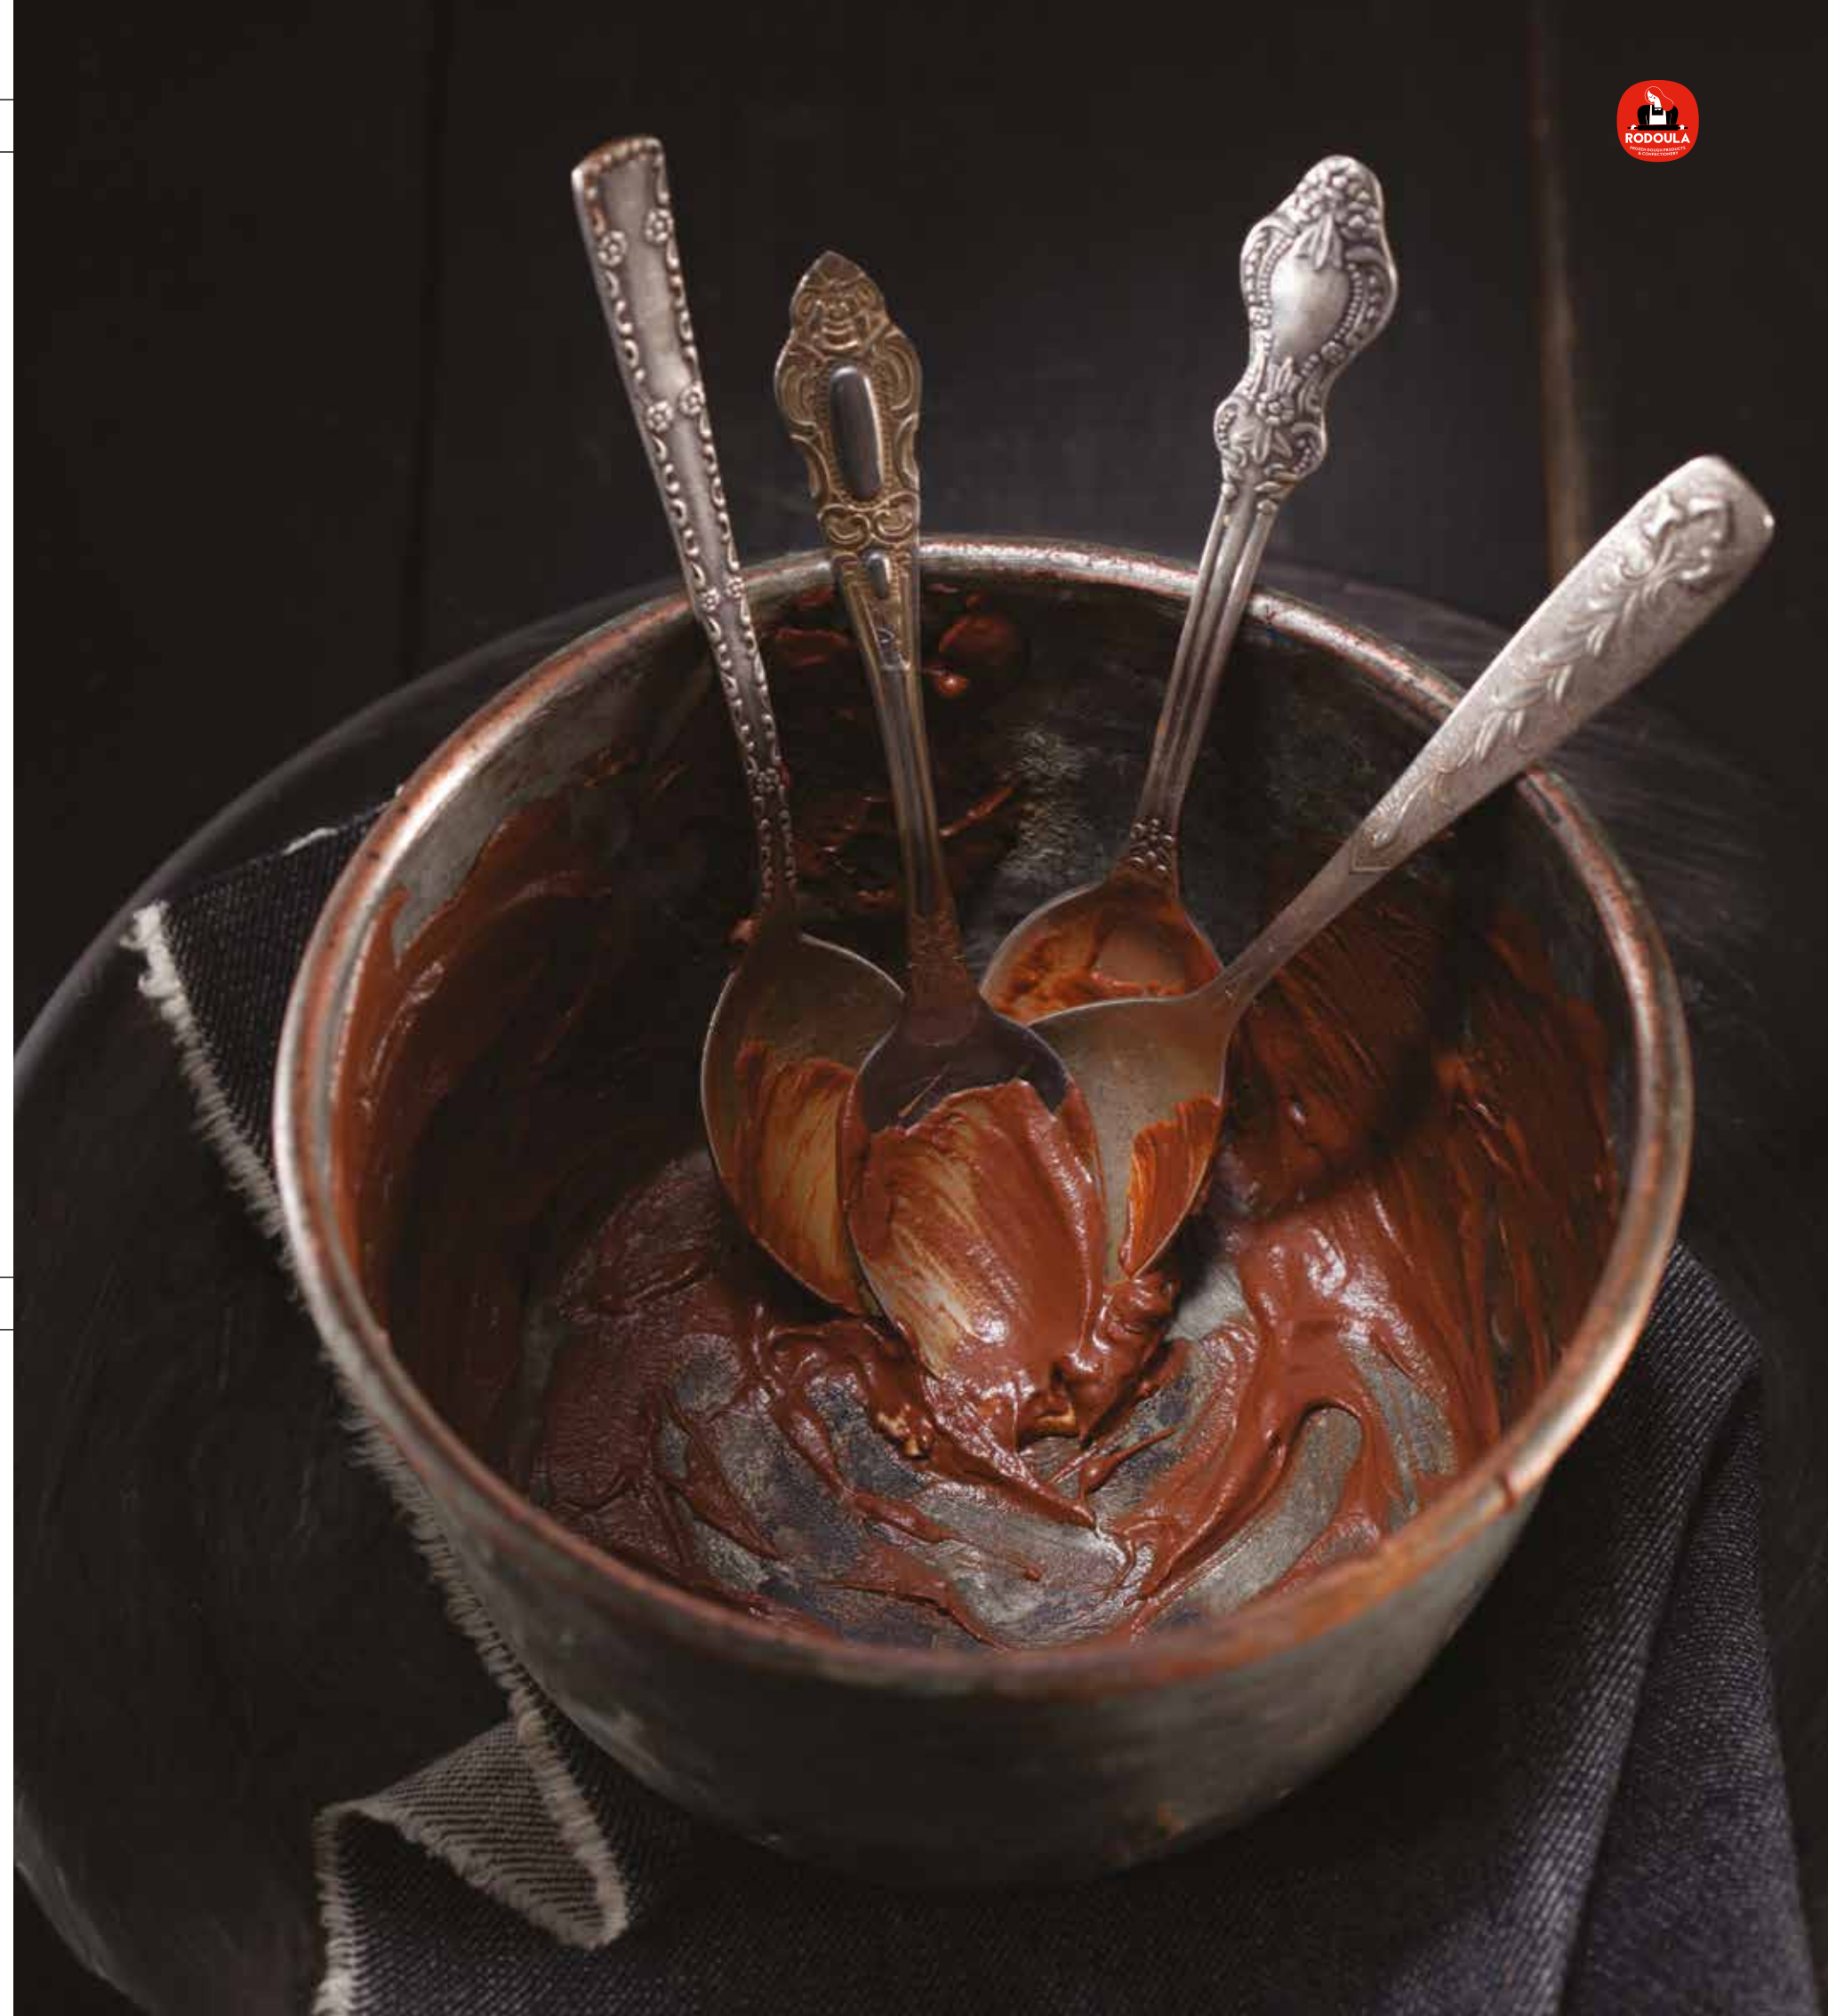

It is in this mood and with this philosophy, that Panagiotis and Ilias Karachalios integrated in Rodoula S.A. desserts, the taste of which remits to the pure years of Rodoula of Ioannina.
